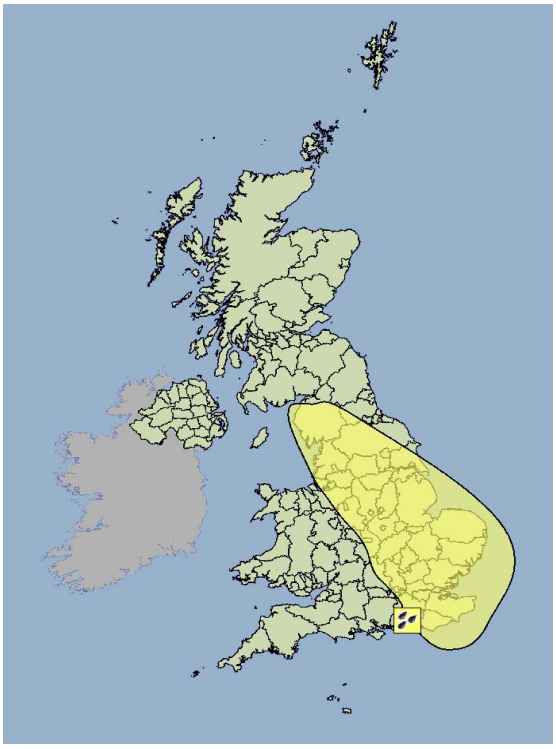
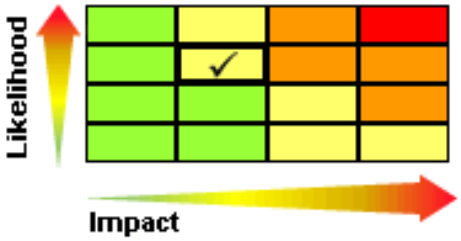
National Severe Weather Warning Service





Chief Forecasters Assessment
Another day when the June sunshine looks like triggering some heavy and slow-moving downpours. 15-20 mm could fall within an hour in scattered locations, bringing the risk of flooding, especially if across urban areas.

The Met Office have issued a **Yellow Alert** of **Rain**

Valid from **12:00 on Mon, 13th Jun 2016** until **21:00 on Mon, 13th Jun 2016**

Scattered heavy thundery showers are expected to develop, and will once again lead to slow-moving downpours across the warning area. Some parts will inevitably miss most, or all, of the heavier rain.

Please be aware of possible localised flooding and disruption to travel.
